

# ANGLO AMERICAN'S CEO PROMISED, 'I WILL NOT GO WHERE PEOPLE DON'T WANT US.'\*

## WE SAY: 'TIME TO KEEP YOUR PROMISE.'

The Bristol Bay watershed supports the world's greatest wild salmon fishery. It is the social and economic lifeblood of the region. This renewable resource provides thousands of jobs, and contributes \$450 million a year in revenue. Anglo American PLC wants to dig a massive open-pit mine at the headwaters of Bristol Bay. The Pebble Mine would dispose of up to 10 billion tons of toxic mine waste into the Bristol Bay watershed, threatening our fish, our livelihoods and our way of life. No wonder 80 percent of the people of Bristol Bay don't want the mine.\*\* The tide in Alaska is strong. And it's against the Pebble Mine.

**Anglo American CEO Cynthia Carroll,  
please keep your promise.**
